PROJECTS

TURF BOOKING MANAGEMENT SYSTEM	**2025-PRESENT**

Developed a **full-stack, responsive** turf booking platform with **dual-role authentication** (Admin & Player), streamlining turf reservations for **20+ locations**. Implemented **OTP-based authentication** and **secure password encryption** to ensure data integrity.

Features include:
Player Dashboard: Real-time turf booking, **rescheduling**, and **cancellation**.
Admin Dashboard: Centralized management of turfs, bookings, and user data..
Scalable Architecture: Built with **React.js**, **Node.js**, **Express.js**, and **MongoDB** for performance and flexibility.

PERSONAL PORTFOLIO WEBSITE	**JAN 2023-MAR-2023**

Designed and developed a **modern, responsive**, and **user-centric** portfolio website to showcase my skills, projects, and professional journey. Built with **React.js** for dynamic rendering and **Tailwind CSS** for sleek, customizable styling, the site delivers a **seamless experience** across all devices.

Key Features:
Skills Section: Clearly displays technical proficiencies with **visual progress indicators**.
Project Showcase: Highlights **MERN stack projects** (like the Turf Booking System) with descriptions, tech stacks, and live links.

Contact Integration: Enables **easy communication** via embedded forms or direct links (e.g., email, LinkedIn).
About Me: A concise yet engaging introduction to my expertise and passion for **problem-solving** and **full-stack development**.
